

Regarding LPFM, this would replace my K-Love station on an FM translator. K-Love is vital to me and my community as it brings a message of hope and love to anyone who is listening. It's influence is far-reaching and available to many because of the FM translator. It also offers no commercials and has a big impact in the Christian community at large. This station reaches many and has been in existence for many years. Your actions will directly affect many areas that have no other means of a Christian radio station. Please consider its influence in your review of LPFM stations.
